Commerce Bees
ECOMMERCE DEVELOPERS

Features

Highlights

- Responsive Behaviour
- Home page Slider
- Special Offer Products in Home page
- Today's Special Product
- Category Side Bar Navigation
- New Product Arrivals

General

- Compatible with **Magento1.6 & above**
- Cross Browser Support

Installation & Configuration

Before you begin the installation process, we recommend backup your Magento installation and database.

- Unzip downloaded folder "**Electromax**".
- **Upload/Copy** all **files/folders** from folder "**Magento Files**" to your Magento root directory, if you are using Mac, please make sure you are merging and not replacing Magento directory.
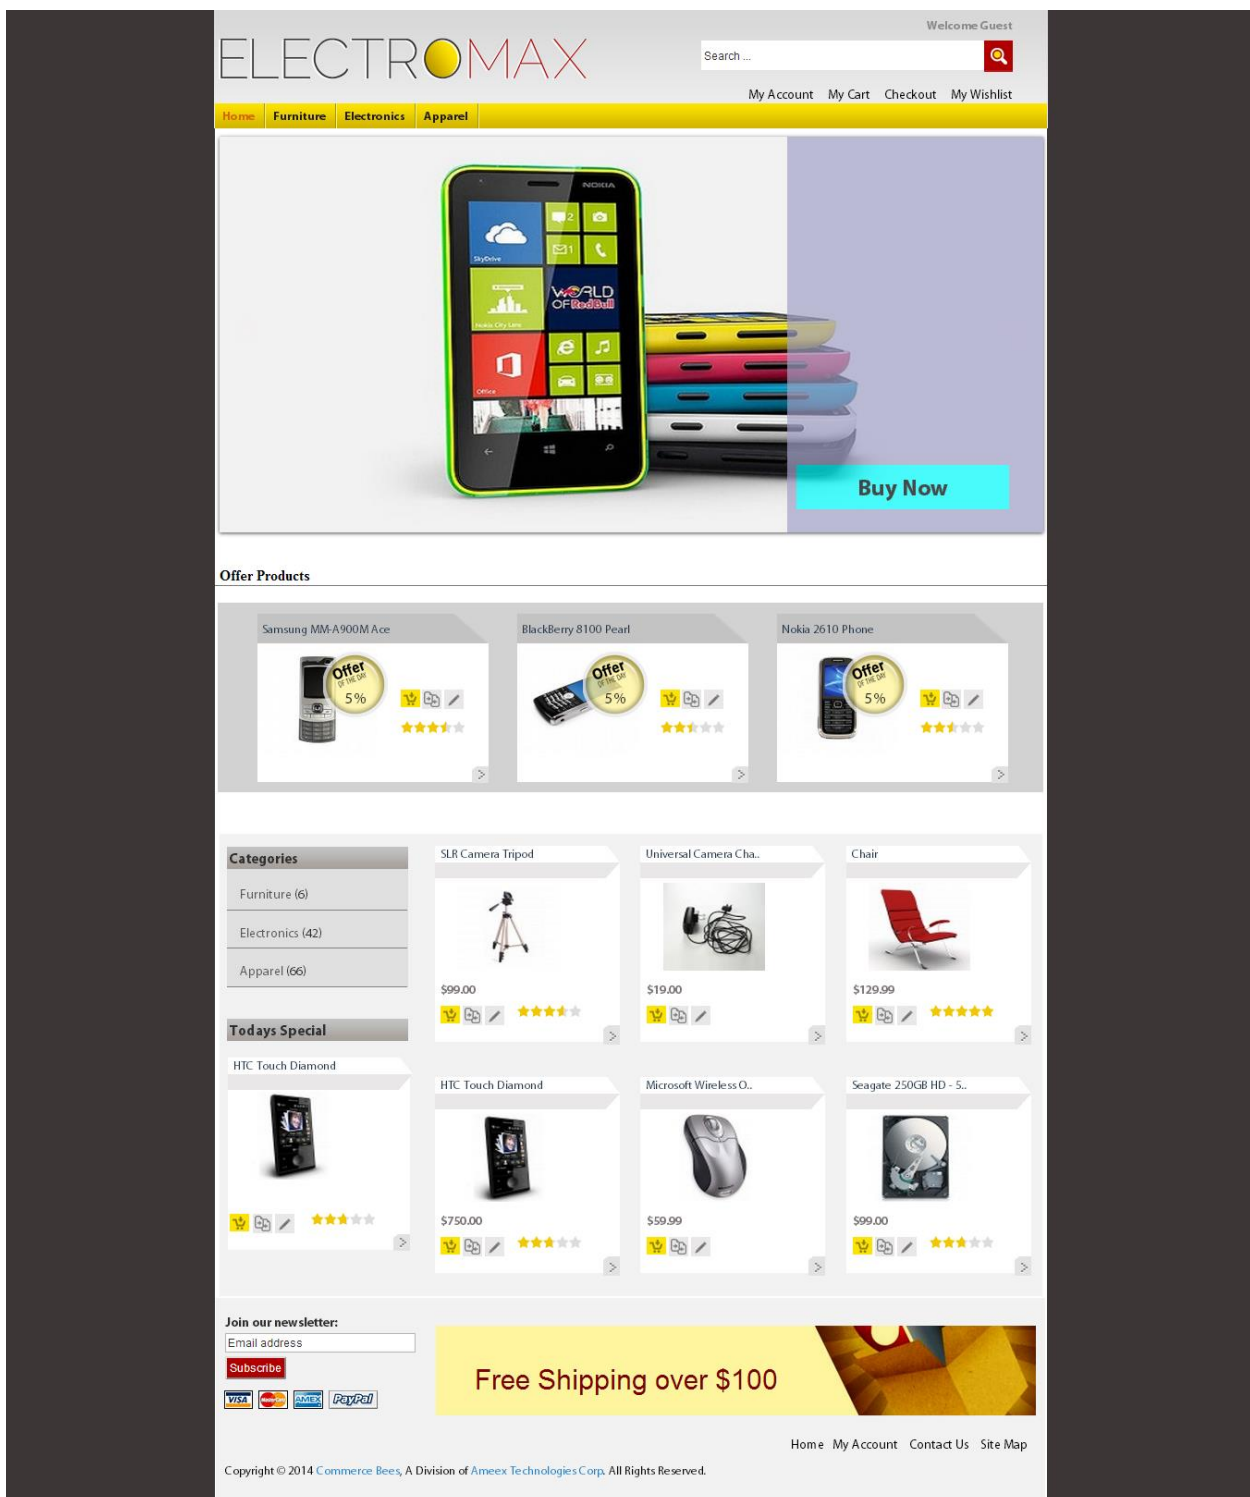

Make "Electromax" as Your theme

- Login to the Magento Admin Panel via Magentosite(ex:www.magentosite.com)/admin

- Go To: **'System → Configuration'** Click on **Design** on the left menu
  Under Package Tab put "**electromax**" into current package name
  Under Header tab put "**images/logo.png**" into 'Logo image Src' Field.

- You can also enter the **Image alter text and Default Welcome Text.**

- Scroll back to the top of the page and click the **Save Config** button.

- Next, go to **'System > Cache Management'** from the top navigation menu. You will need to clear the store cache and all cookies.

- Click the following buttons (in orange): **Flush Magento Cache, Flush Cache Storage, Flush JavaScript/CSS Cache, and Flush Catalog Images Cache** (optional). Now you are ready to add content to your website.

Code Explanation And Usage

```
<div class="home-spot">

        /*------code for slider images ----------*/
        <div class="slider-wrapper theme-default">
        <div id="slider" class="nivoSlider">
                <a href="#"><img title="#offerid" src="{{media url="wysiwyg/samsung-
                smart-tv.jpg"}}" alt="" /></a>
```

```
<img src="{{media url="wysiwyg/Canon.jpeg"}}" alt="" data-
transition="slideInLeft" />

<img src="{{media url="wysiwyg/iphone-4-droid.jpg"}}" alt="" data-
transition="slideInLeft" />

<img title="#newid" src="{{media url="wysiwyg/ku-xlarge.jpg"}}" alt=""
data-transition="slideInLeft" />

</div>

<div id="newid" class="nivo-html-caption">
<p class="caption-tag" style="color: black; background: aqua; text-
decoration: none; font-weight: bold; font-size: 25px;"><a style="color: #000;
text-decoration: none;" href="http://www.google.co.in">Buy Now</a></p>
</div>
<div id="offerid" class="nivo-html-caption">
<p class="caption-tag" style="color: black; background: aqua; text-decoration: none;
font-weight: bold; font-size: 25px;"><a style="color: #000; text-decoration: none;"
href="www.google.co.in">Special Offer</a></p>
</div>
<div id="imgid" class="nivo-html-caption"><img src="{{media
url="wysiwyg/sales1.jpg"}}" alt="" />
<div class="insertimage"> </div>
</div>
</div>
```

```
/*-----Block for Special offer products-----*/
{{block type="core/template" template="catalog/product/product-onsale.phtml"}}

<div class="main-bg">

/*-----Block for today's special-----*/
        <div class="left-overall">{{block type="core/template"
        template="catalog/category/category.phtml"}} {{block
        type="core/template" template="catalog/product/today-
        special.phtml"}}</div>

/*-----Block for New Arrival-----*/
        <div class="productsNew">{{widget type="catalog/product_widget_new"
        products_count="6"
        template="catalog/product/widget/new/content/new_grid.phtml"}}</div>

        </div>
</div>
```

Slider Images

Create a directory named as **wysiwyg** in media folder and place the slider images in the following path

Your **Magento folder →Media →wysiwyg**

Change the image name as you provided in **wysiwyg**. (All the slider images need to be same size).

For example:

If you have image name as **slider1** . Suggested way to change code as

Options in slider

- Image can able to link the page by providing the URL in <img>

- Add a caption to the slider image .

- div id need to be given as title tag of the slider-image and the div is placed after slider-images as follows

```
<div id="newid" class="nivo-html-caption">
        <p class="caption-tag" style="color: black; background: aqua; text-
            decoration: none; font-weight: bold; font-size: 25px;"><a
            style="color: #000; text-decoration: none;"
            href="http://www.google.co.in">Buy Now</a></p>
</div>
```

Special Product Block

In Magento admin panel

➢ Go To **Catalog →Manage Products**

If special price is specified under **Price** tab, then the products will be appear under Special Offer products in Home Page.

First three products chosen as a special offer product will be shown in the Home page under Offer products.

Today's Special Product Block

In Magento admin panel

Step1:

➢ Go To **Catalog →Attributes→Manage Attributes**

➢ Click on **Add New Attribute**

Attribute Properties

Attribute Code *	today_special
	▲ For internal use. Must be unique with no spaces. Maximum length of attribute code must be less then 30 symbols
Scope	Store View ▾
	▲ Declare attribute value saving scope
Catalog Input Type for Store Owner	Yes/No ▾
Default Value	No ▾
Unique Value	No ▾
	▲ Not shared with other products
Values Required	No ▾
Input Validation for Store Owner	None ▾
Apply To *	All Product Types ▾

➢ In **New Product Attribute**

- In Attribute Properties fill the Attribute code as **today_special**, Scope as **Store View** and choose Catalog Input Type for store owner as **Yes/No**.
- Leave Frontend Properties as it is.

1. Choose the **Manage-Label/Options** in Attribute Information.

Manage Titles (Size, Color, etc.)

Admin	English	French	German
Todays_special			

Step2:

➢ Go To **Catalog →Attributes→Manage Attribute Sets**

Add Today's special offer attribute to the attribute set which need to be appear as Today's special offer products .

Edit the attribute set from the list given as follows

Already created today_special attribute appear under unsigned Attributes. Just drag and drop the attribute under General label in Groups.

In similar fashion do this for the remaining attribute set which need to be as today's special product.

Step 3:

> Go to **Catalog →Manage Products**

Then edit each product which needs to be a today's special. Choose **Yes** for Today's Special **Yes/No** drop-down attribute under general tab.

Currently the theme shows one product as today's special product.

New Products Widget

➢   Go to **CMS →Widgets**

Step1:

- Add New Widget Instance.

- Choose Type as Catalog New Product List and Design Package/Theme as default/electromax.

In Frontend Properties tab

- Choose type as New Product List
- Choose design Package/Theme as default/electromax

- Provide suitable title for widget (here it is for New products)
- Assign to All store views.

In Layout Updates tab

- Add Layout Update.
- Choose Display on as specified page.
- Choose page as CMS Home Page
- Choose Block Reference as Main Content Area
- Choose Template as New Products Grid Template

In Widget Options tab

- Specify the total number products need to display in home page. Here it is six.

Finally **Save the Widget**.

The Homepage setup is done.

Troubleshooting & Support

- ➢ **I'm getting 404 not found when trying to open theme admin pages.**
Log out from Magento admin panel, clear the store cache under var/cache, and log in again.

- ➢ **After the extension install the store gives an error, or blank page.**
Log out from Magento admin panel. Change the owner of the extracted extension files to the web server user and set 775 permissions on them. Clear the store cache and try again.

- ➢ **My Configuration changes do not appear on the frontend.**
Clear the store cache under var/cache, clear all browser cookies for your store domain and refresh the page in your browser.

Theme support

If you have found any bugs or have some other problems with this theme. If the problem is not covered there, you can contact us @ support@commercebees.com. We will respond as soon as possible (within 24 – 48 hours, usually much faster).
